

## CaLabo LMS Virtual Language Learning Environment

CaLabo LMS (Learning Management System) is a unique LMS server product specially designed to create a virtual language learning environment.

CaLabo LMS provides the capability to manage and deliver course content, activities, collaboration space and evaluation tools.

It also works seamlessly with the CaLabo EX digital language lab software so that institutions can create perfect asynchronous and synchronous language learning environments.

# CaLabo LMS Virtual Language Learning Environment Linking Content, Classrooms and Virtual Learning

## Manage Course Resources

Instructors can create course pages for each course and add learning modules to each lesson. Learners can log in at anytime and from anywhere to access their course materials, files, discussion and assignments 24/7.

## Submit Assignment Online

Instructors can assign tasks and homework for each lesson. Learners can submit tasks in any file format until the due date.

## Grading

Instructors view assignment submissions or forums and then add grades and comments.

## Forums, Group Discussion

Threaded discussion boards for asynchronous group discussion on lesson related topics.

## Online Chat

Allows real-time synchronous communication by learners from anywhere.

## Polling / Survey

Instructors can create several types of questions including multiple choice for learners. As learners answer the questions, the results will be calculated automatically and viewable by both the teacher and each learner.

## e-Portfolio

Learners can assemble their work, lesson materials and their own recordings for self or third person evaluation or for presentation purposes. Instructors or third parties can have the ability to evaluate each learner's portfolio.

## File Manager

All resources for each course and lesson files can be centrally managed.

## CaLabo Language Lab Integration

Once both the CaLabo LMS and CaLabo EX Digital Language Lab are linked, they will be able to share all course and enrolled student information.
